Software ASIMON V2.1

Accessories

Product characteristics

AS-i Safety at Work

ASIMON programming software

Version 2.11

Configuration, set-up and diagnostics of the AS-i safety monitor

Application

Application

Programming software for AC001S / AC002S / AC003S / AC004S

Software / programming

Function

The software is used for the configuration and set-up of the AS-i safety monitor by means of a PC.
An easy-to-use user shell enables the configuration of the AS-i safety monitor in conjunction with safe AS-i slaves, such as emergency-stop switch, door safety switches, safety light barriers etc. within an AS-i bus system for almost all applications as protection in dangerous areas of motor-driven machines.
ASIMON V2.1 also supports the set-up and the documentation of your safety-related application.
