

Model number

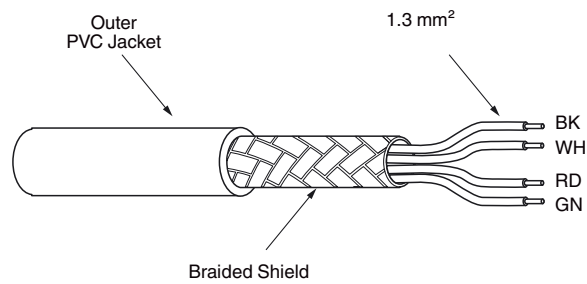

VAZ-RK-PVC-Y904028

AS-Interface round cable

Features

- Braided shield

Dimensions

Technical data

General specifications

Description	Shielded Cable can be used for AS-Interface for networks up to 70m, longer networks can be made but should be checked by an AS-Interface analyzer after installation
-------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------

Electrical specifications

Nominal voltage	U_n	300 V
Current loading capacity		8 A

Ambient conditions

Ambient temperature	-20 ... 75 °C (-4 ... 167 °F)
---------------------	-------------------------------

Mechanical specifications

Core cross-section	1.3 mm ²
Bending radius	80 mm
Material	PVC
Core insulation	Polyethylene (PE)
Cable	
Sheath diameter	8 mm
Color	grey
Cores	4 Conductors
Construction type	Braided tinned copper shield 90% coverage
Cable length	100 m
